

CESAR SERRANO

Senior Data Engineer | Data Platforms | Cloud & Automation | Operational Analytics

São Paulo, SP, Brazil | xcesarx@gmail.com | +55 11 98561-1757 | linkedin.com/in/xcesarx

PROFESSIONAL SUMMARY

Senior-level data and analytics professional with experience in high-volume transactional environments, financial operations, cloud-based analytics ecosystems and operational intelligence.

Strong background in SQL, Python, R, ETL/ELT pipelines, automation, monitoring systems and enterprise data platforms. Experience working across analytics engineering, backend-oriented integrations, cloud infrastructure and operational data workflows.

Hands-on experience with Oracle, Teradata, Synapse Analytics, Azure, Docker-based environments and scalable analytical architectures.

Comfortable working between technical teams, operations, business and product areas in fast-moving enterprise environments.

CORE SKILLS

- SQL (Oracle, Teradata, SQL Server, Synapse Analytics)
- Python, R and automation workflows
- REST APIs and backend integrations
- ETL/ELT pipelines (SSIS, Pentaho)
- Azure, AWS and cloud-based analytics
- Docker, Linux and VPS infrastructure
- Power BI, DAX and operational dashboards
- Monitoring systems and operational intelligence
- High-volume transactional analytics
- Data modeling and analytics engineering
- Distributed systems and scalable data workflows

PROFESSIONAL EXPERIENCE

Assaí Atacadista

Senior Data & Analytics Specialist | Financial Services | Jul/2025 - Present

- Development of operational and financial KPIs for payment, acquiring and financial product environments.
- Built analytics workflows and monitoring systems using Oracle, Synapse Analytics and Azure.
- Worked on high-volume transactional datasets and operational intelligence pipelines.
- Created automated validation routines and backend-oriented data integrations.
- Partnered with finance, product and technology teams on operational analytics and decision support.

Vivo (Telefônica Brasil)

Senior Analytics Specialist | Digital Experience | Feb/2022 - Apr/2025

- Developed near real-time operational monitoring systems with automated alerts.
- Built dashboards and quantitative analysis frameworks for digital experience and operational performance.
- Worked with Teradata, Oracle and SQL Server pipelines in enterprise environments.
- Supported automation and operational analytics initiatives across digital channels.

Vivo (Telefônica Brasil)

Planning Analyst | MIS & Data Operations | Aug/2018 – Jan/2022

- Developed ETL processes and automated reporting workflows using SSIS and Pentaho.
- Created SQL Server and Teradata routines for operational and analytical reporting.
- Supported large-scale operational reporting environments.

Vikstar Contact Center

Data Analyst | Feb/2018 – Aug/2018

- Developed operational dashboards and automated reporting workflows.
- Built and optimized SQL queries for analytical support and operational reporting.
- Structured ETL processes integrating SQL Server and Power BI environments.
- Supported automation and operational analytics initiatives across digital channels.

Visuall Agency

Systems Analyst | Nov/2017 – Jan/2018

- Worked on analysis and development of web solutions and system integrations.
- Developed applications using Python and Vue.js.
- Designed APIs and supported system evolution initiatives.

TIVIT

IT Infrastructure Supervisor | Operations Coordinator | Apr 2014 – Mar 2017

- Coordinated operations and support for critical corporate environments.
- Managed Windows/Linux environments and enterprise infrastructure operations.
- Worked closely across technical teams, clients and operational areas.

Work Image / TIVIT

Programmer | Systems Analyst | Apr 2005 – Apr 2014

- Developed enterprise applications using ASP, ASP.NET, PHP, VB.NET and SQL.
- Structured and maintained relational database environments.
- Developed integrations and supported continuous system improvements.

EDUCATION

- B.Sc. Statistics (In Progress) — FMU | FIAM-FAAM (Expected 2027)
- MBA in Data Science & Analytics — USP/Esalq (2023)
- Postgraduate Degree in Strategic Management — Claretiano (2015)
- Systems Analysis Degree — Grupo Educacional Drummond (2008)
